	LCAP Goal #1 Highlights Instruction and Learning - College and Career Readiness	LCAP Goal #1 1.4.5 \$60,000 after school to CALSOAP - 4 days / week 1.3.7 \$15,000 migrant education Strategy #4: Learning walks \$3000 how is it being used? A lot of the stuff is unclear on what is being spent and how it is being implemented. Going through Goal #1 and strategies - Aeries Normally: Sending a team to a PLC training Request funds from SSC and Site Council to explain and implement In the future: there should be approval. Funds should be approved prior to being spent. PLC training: no one has gone yet Process: Principal is given \$x and SSC looks at needs. Process of allocations and specifics.	CSU Retention Data Wifi and increase bandwidth

		<p>Future prioritization and looking at analysis.</p> <p>Strategy / Activity 12 \$10,000 in addition to FTE for EL instructional coaches Question: Is this part of the salary?</p> <p>Are you seeing this in the classroom? - CALSOAP tutors during class time</p> <p>How do you measure goals? Migrant students in STEM</p> <p>CTE Perkins - Contacting graduated students and follow-up in CTE Capstone courses Senior exit survey Difficulty in keeping up Potentially use counseling secretaries to contact</p> <p>DCs will be giving input and needs at the end of the year for the process for next year</p> <p>Annual measurable outcomes: Increase chromebooks available to students in 1:1 ratio Actual outcomes: 1 chromecart per department Money allocated would not move to 1:1 Report is not matching what was set up and what is a priority Students and teachers feel like there is not money matching money. Infrastructure: Wifi</p>	
4:52 pm	LCAP Goal #2: Equitable Supports for All Learners	A-G audit Strategy / Activity #1 \$30,000 \$25,000	SSC to talk to Principal to see what has been spent, what would be the next

		<p>Earmarked funds for 7th period ELA/Fine arts? Analysis 7th period is not available for socioeconomics.</p> <p>What has happened already? How is this money being used? Does anyone know what's happening? This is not the first year this is happening.</p> <p>We need to start with the reader's digest and move to the Encyclopedia.</p> <p>In a perfect world, there is alignment for the need, materials, goals. Recommendation for council and what has been spent. Reallocate funds. No strategic planning.</p> <p>Where is the money? How can we utilize the money so that our students and our staff can use the money?</p> <p>There is still time and there are still needs.</p> <p>Principal is also under pressure from others from discretionary budget.</p> <p>So happy for the committee formed and we are here to make sure that things are happening and how to approach the principal and make sure that they are not just suggestions but there are happening</p> <p>Principal should be present and make an appearance to these</p>	<p>priority.</p> <p>Cleaned up budget from Mukai on what is left.</p> <p>SPSA committee to work individually to bring goals back to whole committee</p> <p>Talk to CHS and see how effective shmoop.</p>
